Dear Mr. Gearheard:

Re: Pacific Wood Treating Corporation  
EPA/Ecology ID No. WAD00942411

Your letter to Ed Ryf, of Pacific Wood Treating Corporation, dated July 24, 1990, has been forwarded to me for review and action.

In your second paragraph, you acknowledge an August 8, 1984, response to a Department Of Ecology order. You further advised that PWT outlined the closure procedures it had undertaken for the ash pile located at its manufacturing site. You then indicate that the closure information provided is insufficient for EPA to make a required equivalency determination.

The purpose of your July 24, 1990, letter appears to be to request additional information from PWT to enable you to make the equivalency determination. Unfortunately, your letter does not indicate what additional information is needed or what information appears to be missing. If you would so advise, we will try to meet your request of notifying you within thirty days of the date of your letter as to whether we intend to continue to make an equivalency demonstration.

I await your response.

Very truly yours,

A handwritten signature in dark ink, appearing to be "Scott Howard", written over a horizontal line.

Scott Howard
